

SENSATIONAL CASE IN SUPREME COURT

Half-Breed Woman From Morinville Enters Action Against McDougall and Secord for Recovery of New Manville Townsite--Claims That Script Transfer Was Forged

In a civil action entered in the Supreme court on behalf of Rose Munier against McDougall and Secord for the restoration of 240 acres of land in which is comprised the addition to the townsite of Manville, on the C.N.R. line, title to the addition having been in the balance and the charge made that the instrument by which title was passed was from forged.

Rose Munier, plaintiff in the case, is a half-breed woman, living about six miles from Morinville. At the time the script was issued, so it is claimed, she was a minor and not legally competent to execute a sale. The script, which was sold by her father was purchased by McDougall and Secord along with many others at the same time and was subsequently used to the on the 240 acres which eventually became the townsite of the town of Manville. The woman claims that she had no knowledge of the sale of the script, that the location was not regular, that the signature to the transfer was forged and that the transfer in question is property hers, notwithstanding that it has been subdivided and that a large number of town lots have been sold from the plan.

The woman also claims that in No-

ember of last year, after action had been entered in the recovery of all property that agents of McDougall & Secord visited her at her home near Morinville and by duress obtained from her for \$500 a 240 acre tract which the woman says to have very little English, tells in pantomime how the men who secured the quo claim from her to her husband and reported that their father would be sent to penitentiary camp who signed the quit claim to the 240 acre hillside hills on the table and told her that they were all hers if she signed.

The case is attracting an immense amount of interest among the lawyers and the press, and, despite many of whom have gathered to watch the progress of the case.

The case was on the supreme court docket to come up before Judge F. J. Morris yesterday, but owing to the pressure of business was not reached on the docket until the afternoon of yesterday evening. It will probably come up after the criminal session, on March 7th.

E. B. Edwards is acting for the plaintiff, Rose Mercer and Frank (Frank) Newall, Bullock, Ford and Maitland for McDougall and Secord, the defendants.

OPEN SHOP QUESTION WAS NOT DISCUSSED

AT CONVENTION OF BUILDERS HELD IN WINNIPEG RECENTLY—WESTERN EXCHANGES HAD STRONG DELEGATIONS PRESENT—EDMONTON MAN VICE PRES.

The most successful convention ever held in the West was the way that some of the Edmonton delegates described the convention of the Canadian National association of builders at Winnipeg, on their return to the city yesterday.

Several of the delegates remained in Calgary yesterday, while Messrs. Pheasant and Watson were in Chicago.

The delegates had particularly pleased the Edmontonians who had two offices on the executive of the association, which is now one of the strongest organizations in Canada. George Hougham, president, and the position of first vice-president of the association, and G. C. Watson was elected vice-president of the western division of the national association.

Of course, this is the first time that western exchanges have been so strongly represented at the convention of the National association," said one of the delegates. "A large number of

the western exchanges have just become affiliated with the association, and of course they were represented.

"The vote to have the convention at Calgary next year, was lost by only two votes, the convention going to Toronto.

The Open Shop.

"The open shop movement did not come up in any way for discussion at the convention. The newspapers have been under the impression that the same of the open shop is that it is necessary for the National association to ratify the action of the exchanges in declaring open shop, but this is a matter left entirely to the exchanges themselves. Although it is understood that many of the western exchanges have declared open shop, no declaration of this was made at the convention, and the Edmonton delegates presented several resolutions which were adopted."

HAD TOUGH TIME IN NORTH COUNTRY

Major Saunders' Survey Party Meets With Hardships During the Winter Work

With the assistance of the party in a serious condition, and with the other members of the party recovering from the severe cold, they described as being the worst experience they ever had. While in the worst, in which they were snowbound for days, and compelled to kill one of their dogs, to keep themselves alive, the survey party, Major Saunders, of Edmonton, who was engaged during the past winter in running the 19th base line, is now out of the way, and will reach here tomorrow or next day.

According to one member of the party who reached the city ahead of the others, he had some hard experiences in the north. They were working for the most part north of Lake La Biche, and according to Grist, the member of the party who reached the city first, they were snowbound in a wretched condition for days, unable to move, and ran short of provisions, and were compelled to eat horse flesh and one of their horses which they killed.

Out of a bunch of 23 horses which they had with them when they left Edmonton, he said that the party are now down to only three. The remaining chief of the party was taken ill on the way, in cold lake, and was left at Fort Saskatchewan in a serious condition, and was unable to move, suffering more or less from exposure. Major Saunders is with the party.

They left Edmonton last November for the winter, and have been on the snow all winter. The snow was particularly deep, and the cold particularly severe.

Robert McLean, who was called by the prosecution, cross-examined the party, and he admitted that the party have been afraid to live with Carson alone because he might make an attack upon him. He had never made any threats in his presence.

The defense endeavored to prove that he had been acting strangely for some time. He would not talk to anyone from morning to night, even to his oldest friend, whom he had known from childhood.

Robert McLean was called by the defense, and he admitted that the party have been afraid to live with Carson alone because he might make an attack upon him. He had never made any threats in his presence.

The court was adjourned at 12 noon, and the defense continued this afternoon. The first witness for the defense, Alfred Carson, the accused, will be called immediately after the court opens to give evidence in his own defense.

SWEDISH LUTHERAN CONFERENCE

Marquette, Mich., Feb. 21.—The Swedish is the largest of several Lutheran church gatherings being the first general meeting of the new Superior conference of that denomination. The conference, which includes the entire upper half of Michigan and northern Wisconsin, which were formerly embraced in the Illinois conference.

ODDFELLOWS AND REBEKAHS HOLD SESSION TODAY

Convention Is Being Held in the I.O.O.F. Hall, Norwood Block—Will Cover Three Days

DEGREES CONFERRED ON TWENTY CANDIDATES

Rebekahs Will Hold Business Session on Thursday—Large Number of Delegates, Representing Both Orders, Arrive in City

Nearly two hundred delegates to the Oddfellow grand lodges of the I.O.O.F. Hall, Norwood Block—Will Cover Three Days

Calgary, Feb. 21.—Heavy human, shaft engineer on the city electric light force was electrocuted at midnight. He was shooting a friend with a pistol, when it exploded and fell on the live wires and was immediately killed. He came here from Red Deer, previously from Ontario.

Calgary Supreme Court.

Calgary, Feb. 21.—Following at the Supreme court, the criminal docket will come up. Three murder trials are scheduled and two assault cases, one of which involves stolen goods, will also be heard.

Also the Black Hand case will be continued.

The trial of John Fisk for the murder of Tucker Peach will doubtless head the list and this will be followed by the trial of Thomas Miller.

The other murder trial is that of the Indian, Peter Samson.

Dominion.

Winnipeg, Feb. 21.—The Dominion government came out flat-footed against the reciprocity amendment in the legislation, and adopted in its place an alternative and far more generous extension of trade within the empire. Hon. Robert Rogers moved the amendment in the resolution of the opposition amendment to the reciprocity bill, and was supported by the Liberal members.

Grand Representives, Alex May, Edmonton; Grand Master, W. G. Sher, Fort Saskatchewan; Grand Warden, A. Brown, Fort Saskatchewan; Grand Secretary, E. T. Tisbale, Calgary; Grand Treasurer, H. J. Adams, Calgary; Grand Marshall, M. H. Matheson, Granum; Grand Conductor, J. C. Bush, Lethbridge; Grand Chaplain, G. R. Lang, Vegreville; Grand Guardian, J. F. McLean, Innis; Grand Herald, T. A. McLean, Canmore.

Declare Yourself in With the Wise Ones

Buy Acreage in Alberta Park

THE Best Buying in Acreage in the Province of Alberta. Blocks facing on Alberta Avenue one mile from the city limits. Located in the direction in which the city is growing most rapidly. Correctly arranged for redivision into city lots.

An Attractive Proposition

Alberta Park has features which will recommend it at once to the intelligent investor. Located within one mile of the city limits, it is certain to come within the scope of residential settlement in a comparatively short time. The trend of development in the city today is west and northwest and Alberta Park lies right in the path of the most rapid extension of the city. Observers who have noticed the advances in property value which have been made in west end suburbs will recognize at once that the continuation of this development is certain to make Alberta Park property very valuable. Great Estate, Inglewood, North Inglewood and Hempriggs property has increased in value within the past two years by 200 to 500 per cent. and the astute property owners in these sections recognize that the advance has only just commenced. Alberta Park is certain to come within the radius of this advance in the immediate future, and at the price at which it is selling today it offers an absolute certainty of handsome profits.

The Right Time TO BUY

The activity which has set in in the west end makes it certain that this property will be all closed out before many weeks. Already nearly 25 per cent of the property has been sold, and the balance will go very rapidly. The purchasers who get in now have the advantage of the choice of the blocks which are left and still have an opportunity to make a favorable choice.

Remember that the first purchasers in Norwood, Belvedere, Inglewood and practically every subdivision that has ever been put on in Edmonton reaped the big rewards and got the quick profits. Lots in Norwood on First Street which were sold on the first allotment at \$120 are being advertised today at \$1,450 each. These were first choice lots then and they are first choice now. The blocks in Alberta Park along Alberta Avenue which are being picked up now at \$250 to \$300 will be first choice a year or two years from now at prices very much in advance of present quotations.

Five-Acre Blocks \$250 an Acre

With the interpretation of the tenants' franchise clause placed by the city solicitor, there is nothing left for the city assessor to do now but to enroll the names.

NEW FORCE IN With this new force in the electorate of Edmonton the predominating influence in civic ELECTIONS affairs will pass out of the hands of property owners and into the hands of tenants.

Under the new arrangement the labor unions alone, who have been most active in demanding the tenants' franchise, will enroll more voters than have ever yet voted at any municipal election in Edmonton.

The adoption of the tenants' franchise places Edmonton on the same footing as Calgary, Winnipeg, Vancouver and other western cities, where the voting strength bears some relation to the size of the communities.

While the Democrats of United States have been searching their ranks for a leader, the leader has evidently found himself in the person of Champ Clark, member for Mis-

CHAMP CLARK'S souri, and the new leader is showing himself a wily manipulator in a tight corner. LITTLE BLUFF When Taft brought in the reciprocity bill the question before the Democratic party in the house was how to vote for the bill and at the same time defeat it.

Clark was equal to the emergency. Making a speech which placed the Democratic party squarely in line with its ante-election pledges for free trade, he wound up with a declaration that in his opinion the reciprocity arrangement would ultimately lead to the annexation of Canada, the undoubted intention being to scare Canada out of the agreement.

If Clark's bluff succeeded the Democratic party would be able to go to the people in United States at the next election with a promise to reduce the tariff, not only against Canada, but against all countries alike. If the reciprocity arrangement goes through Clark's thunder is stolen by Taft, who goes to the people with the record of having secured one reciprocal arrangement and the promise of many more.

In the meantime, Canadian newspapers are falling into the trap laid by Champ Clark and many are waving the old flag and declaring that reciprocity will certainly mean the annexation of Canada by United States.

The only thing wrong with Clark's scheme to defeat the arrangement is that he underestimated Canada's fears. The Dominion has heard so long the alarmist cry of annexation that it has grown used to the din and does not pay much attention to it any more.

In the advertising supplement of the Strand Magazine for February appears a full page advertisement which says:

POWER IS WEALTH
A HUMORIST Canada's "White Coal" could generate
IN DOMINION 28,692,900 horse-power
PUBLICITY For free pamphlets, apply to J. Obid Smith,
Assistant Superintendent of Immigration,
11-12 Charing Cross, London, S.W.

The ad is embellished with a couple of very attractive cuts of waterfalls which show great potential power, and is evidently intended to allure British capital to Canada to develop the power resources of the Dominion.

Considering the fact that there is no information on record in the department of the Interior at Ottawa or elsewhere from which the cities of Edmonton and Calgary can learn what power there is available in their immediate vicinities, and the fact that no attempt has ever been made to survey the water powers of the west, it would be interesting to know from what hypothesis the exact figures of 28,692,900 horse-power are arrived at.

A comparison of the Strand advertisement with Edmonton's experience makes it look as though there is a finished humorist somewhere in the employ of the Dominion's publicity bureau. That exact 900 on the tail end is a scream.

With the session of the civic investigation is slated for this afternoon the council committee will probably finish its work and bring in its report.

INVESTIGATION The investigation all through has been BADLY HANDLED badly handled. The council has taken the BY THE COUNCIL view that it was to the city's advantage to hold the investigation in secret, a proceeding entirely unwarranted and uncalled for, and one which quite unnecessarily introduces an element of suspicion in the minds of the ratepayers. Had the investigation been held in the open the public would have been the judge of the wisdom or otherwise of the final conclusions arrived at by the committee, and a unanimous opinion is always the strongest regulating force.

Furthermore, the city council practically accepted a challenge from Commissioner Bouillon when he said that he would not consent to having his activities investigated by a council committee on which Alderman Mould was included.

The council, being elected by the ratepayers to attend to the city's affairs, is dictator of who should investigate, not Commissioner Bouillon, who is employed at a salary.

With the doors closed, the ratepayers are given no opportunity of learning how the council accepted the defi hurled out by Commissioner Bouillon.

"THIS DATE IN HISTORY"

February 21, 1677—B. de Spinoza, celebrated as a philosopher of the school of atheism, died. Born in 1632.

1711—Charles Gra文, commissioned as colonial governor of South Carolina.

1813—Ogdensburg, N.Y., captured by force of British and Canadian soldiers.

1829—Virginia general assembly passed a bill to prohibit the first班 tariff bill as unconstitutional.

1831—John Quincy Adams, sixth President of the U.S., died in Washington, D.C. Born in Quincy, Mass., July 11, 1767.

1842—Lord Gough, leader of the Sikhs in bloody battle at Goojerat.

1854—Czar of Russia proclaimed war against Turkey.

1856—Roman Catholic diocese of London, Ont., was established.

1882—Charles Bradlaugh expelled from the British House of Commons, 1880—1881. William Thompson Sherman buried at St. Louis.

1910—The new British Parliament was formally opened by King Edward with a speech from the throne.

"THIS IS MY BIRTHDAY"

Era Ripley Thayer. Ezra Ripley Thayer, dean of the Harvard Law School, was born in Milford, Mass., Feb. 21, 1866, the son of Prof. George Jackson Thayer, who was long a member of the Harvard Law School faculty. He studied at the Cambridge high school and also received private instruction at Atheneum. After graduating from Harvard in 1888 he served for a time as secretary to Justice Horace Gray of the Supreme Court of the United States and was soon admitted to the Massachusetts bar. He began practice in Boston and soon attained a position of prominence in his chosen profession. While engaged in his private practice he lectured frequently at the Harvard Law School and in 1909 he was selected as dean of that institution to succeed the late Professor James Barr Ames.

COUNCIL WILL NOT
REACH DECISION
THIS EVENING

Question as to Board of Trade Grant
Will Not be Settled
Tonight.

CHAIRMAN OF FINANCE
COMMITTEE IS ABSENT

Parks Committee Will Report to Council
This Evening—Two Rinks En-
tered at Red Deer Bonspiel.

Strathcona, Feb. 21—It appears now that the question of making a grant to the board of trade will not be decided at the monthly meeting of the city council despite the fact that the committee were to submit a report on this date. Contrary to expectation, Ald. Pollard, chairman of the committee, has informed him from his trip to the States, but he will be back before another meeting of the council.

When the question came up two weeks ago, the grant was granted, but turned down by the mayor's vote and an amendment to refer it to the finance committee was voted negative through an amendment on a point of order.

It was indicated however that the matter would be sent on to the committee but Ald. Pollard's absence will probably mean at least another week's delay in informing the board of the fate.

At an executive meeting of the board of trade yesterday afternoon the members viewed with considerable interest the new public scheme for a general publicity scheme as advocated by the Edmonton board for all central Alberta. As this co-operative campaign is to be conducted on a large scale, Strathcona would contribute one half, Strathcona would be expected to assist to the extent of \$1,500 at least, and this would render anything less than \$300 from the city almost a wholly inadequate appropriation.

Report Tonight on New Park. One report which will be forthcoming to the committee from the parks committee on the offer made the city one week ago by the Sandeman-Cope company, of 27 acres near the Head Mud River, a distance of 10 miles from the city, for the consideration of \$11,000. Ald. Tipton announces that he will have his report ready for this meeting but gave no inkling as to the trend of the report. It is to be noted however that the offer was turned down.

CLAIM NO MORE ACCIDENTS IN U.S. NAVY THAN IN ANY OTHER NAVY

OFFICERS DEFEND THEMSELVES AGAINST MANY CRITICISMS FOLLOWING ACCIDENTS ABOARD—DECLARE POWDER USED IS BEST MANUFACTURED

Washington, Feb. 18.—Are there more accidents in the United States Navy than in any other navies? Are the risks greater in service aboard the modern Dreadnought than in machinery plants of an equal size on shore?

These two questions have been placed before Naval Officers as persistently as the critics have tried to prove to the public the reliability and safety of battleship machinery by American Naval Officers.

The critics insist the frequency of accidents in the United States navy comes from sources that demand consideration. Following the recent boiler explosion aboard the Dreadnought Devastation, in which nine men lost their lives, Rep. John W. Twiss, a member of the House on naval matters, and formerly a United States Naval Constructor, said that the frequency of these accidents was due to the system prevailing in the American Navy of requiring officers to do double duty, fighting as well as engineering, which prevented them from becoming expert in engineering or battleship management.

Concerning the accidents due to gun explosions, Sir Hiram Maxim, an international authority upon explosives, stated that the fault should be laid upon the kind of powder used in the United States.

The Navy is fighting against such accusations with all its might, and main. At the request of Secretary Meyer, the Bureau of Ordnance made an exhaustive study of the charges of Sir Hiram Maxim and submitted a report during the tenth.

The Bureau laid the blame upon the types of guns, an evil which, they say, is

"Forever? Probably not. Probably only for a brief breathing spell, when, under Mr. Taft, we may hope to get back to the old gun of our fathers."

"We may expect to have Mr. Roosevelt sitting on us again with twenty-eight times the weight of any other presidential burden that a hostile power could impose upon us for our sins—".

"Our people have adored this show chadon as nothing in the history of the world has been abroad since the golden calf; so it is to be expected that the Nation will want him back again after he is done hunting other wild animals himself with the sabre and the park of artillery and a brass band."

HONOR LIBERAL LEADER

Baltimore, Feb. 20.—Books that were owned and manuscripts that were written by Samuel L. Clemens (Mark Twain), collected here for disposal at auction at an early date, are found to contain some excellent indications of the late author's methods of work. An interesting and comparatively recent document refers to Colonel Theodore Roosevelt.

One of the early manuscripts is a description of an audience on the occasion of the story of Huckleberry Finn, which relates to the fight in the cave. Among the notes are written: "Quarrel, fight, Peter knocked down, with Tom's help, and Tom, Joe and I, and the Potter insensible. Tom will bury Dr. in Tom's hole and will make Potter think he is necessary. Finds treasure—goes and gets it—returns and finds P. up. No use to bury body, for Potter thinks he did it."

Among the other manuscripts is one describing an audience on the signature of Roosevelt. The title of the document is "The signature of the president of the country from Mr. Roosevelt," dated March 6, 1909.

It is a copy of an audience on the occasion of the signature of the president of the country from Mr. Roosevelt, dated March 6, 1909.

NEW CROPSHIP SERVICE.

Liverpool, Feb. 11.—The statement of the Canadian Steamship company and Canadian Northern Railway company, forming a combination for steamship service between Bristol, Liverpool and Canada. The management will be in the hands of a joint board of which a director of the Canadian will be chairman.

WILD MAN OF THE WOODS CAPTURED

Lived Near Kenora Like Animal for Four Years—Threatened to Kill All Who Came Near

Toronto, Feb. 21.—An almost incredible tale of a creature who for four years lived like a beast, threatening to kill everyone with whom he came in contact, reached a climax this morning with the news of the arrest near Kenora of a man named Beck.

The "wild man" has been appointed a board of inquiry to make an exhaustive report.

The officers defend themselves by saying that there are no more accidents in the U. S. Navy than in any other, but that there is no navy except that it has been given publicity to it even when it did not occur.

They point out that the death of a few men in some factory ashore is purely a matter of local interest compared with the mass of that neighborhood, whereas the death of a man in the Navy causes the story to be heralded in every corner of the country. Other sources suppress the news of such accidents.

The modern Dreadnought, they say, is a huge and complicated floating machine shop. Even with every precaution there is an element of danger under those circumstances, but they maintain that statistics, if they could be collected, would prove that the average man of the Navy is more carefully protected than the civilian employee working under similar conditions.

It is very probable that some precise information upon this subject will be gathered by the Navy Department and published to show the true comparative extent of accidents in the U. S. Navy. This idea is being seriously discussed at the Navy Department.

Concerning the accidents due to gun explosions, Sir Hiram Maxim, an international authority upon explosives, stated that the fault should be laid upon the kind of powder used in the United States.

The Navy is fighting against such accusations with all its might, and main. At the request of Secretary Meyer, the Bureau made an exhaustive study of the charges of Sir Hiram Maxim and submitted a report during the tenth.

The Bureau laid the blame upon the types of guns, an evil which, they say, is

"Forever? Probably not. Probably only for a brief breathing spell, when, under Mr. Taft, we may hope to get back to the old gun of our fathers."

"We may expect to have Mr. Roosevelt sitting on us again with twenty-eight times the weight of any other presidential burden that a hostile power could impose upon us for our sins—".

"Our people have adored this show chadon as nothing in the history of the world has been abroad since the golden calf; so it is to be expected that the Nation will want him back again after he is done hunting other wild animals himself with the sabre and the park of artillery and a brass band."

A PICTURE Eight

When taken to Kenora jail he presented a most pitiable sight and looked more like a gorilla than a human being. The hair on his head and face was stiff and coarse, and his hair and grime obscured his features.

His clothing was the skins of sheep he had killed bound together with fragments of wire. The provincial authorities, it is understood, will have him sent to an asylum.

BRINGS SUIT AGAINST CITY.

Voltage Jumped and Doctor and Patient Was Treated as Bodily Barred.

St. Thomas, Feb. 21.—The city will be made the defendant in a peculiar case suit as the result of an accident which occurred in the city's lights today. He was treating a patient with an electrical apparatus when the current, normally of 500 volts, became suddenly much stronger. The current struck him in the head, a blow received of which a director of the Comair line will be chairman.

Little Jeff is Very Strong on the Social Stuff : : : : By "Bud" Fisher

WRESTLERS WILL HOLD A BIG MEET

Y.M.C.A. WRESTLING CLUB IS ARRANGING TO HOLD TOURNAMENT IN MARCH—MANY EXPERT MAT ARTISTS HOLD BI-WEEKLY MEETS IN Y.M.C.A.

There will be a big amateur wrestling tournament in Edmonton in the Old Country, both being from Lancashire, England, where wrestling is a popular sport. The club has been formed indeed in seeking the services of this pair who not only good wrestlers themselves, but also willing and capable instructors. The George R. Jackson, the former president of the Y.M.C.A. of London, is the home of the same name. In addition to these, it is expected there will be a number of outside entries.

The wrestling club is the most popular club in the Y.M.C.A. at the present time. Every Tuesday evening they hold their meetings in the conference quarters which have been fitted up in the annex just west of the gymnasium. A mat 25 by 15 feet has been put down and judging by the use it has been getting during the past month, they are well satisfied with the arrangements.

Some real classy exhibitions of the mat game are to be seen on club nights and not a few of the men now training will in the near future be able to uphold the colors of Edmonton in the Y.M.C.A. in any company with credit.

Some of the new men are showing a decided improvement under the careful coaching of Messrs. Lord and Webster. These two men have had a good deal of experience at the game in the Old Country, both being from Lancashire, England, where wrestling is a popular sport. The club has been formed indeed in seeking the services of this pair who not only good wrestlers themselves, but also willing and capable instructors. The George R. Jackson, the former president of the Y.M.C.A. of London, is the home of the same name. In addition to these, it is expected there will be a number of outside entries.

The club intend putting on a tournament toward the latter part of March, which will bring together the best men at the different weights. This tournament will be held in the gymnasium, where the mat will be 25 by 15 feet and good size audience and the friends of the game will be given a chance of seeing some real good bouts under first class conditions.

Any man who is interested in this sport should turn his back and help things along. There is still room for one or two good heavy men. Any information regarding a club will be cheerfully given by the physical director or the members of the club at any time.

ARRESTED.
Vernon, Feb. 20.—Special to The Capital.—Kenny Blatchford, Otto Hasan, and MacMillan alias Howard have been arrested here on a charge of fraud in connection with a wrestling match which was held several days ago and in which many bettors lost a big pile of money. They will be sent up for trial.

SUPERSTITION

Before the Capital's five mile track meet at the C.G.R.A. track yesterday afternoon the unwillingness of some drivers to go to the post carrying number 13 was demonstrated. Jenny Price, of Vernon, who had been allocated to number 13 on the draw, and the officials were preparing to register her as such when Owner McGinn appeared on the scene and asked for a change of numbers. "A horse with number 13 on it, with that handicap, which is sometimes known as swelled head."

Judge King, of Syracuse, suspended the incident with the remark that "anyone of the associations that backs a horse on the basis of the numbers, a natural number of the drivers refusing to race with that tag upon their horses' back."

It might here be added that Jenine Price, even with the bad luck handicap changed, was a loser.—Hamilton Spectator.

These results at the Capital rink last night were:

Bell, 10; Young, 8.
Moffat, 9; McGowan, 10.
Ewing, 6; Webb, 11.
Walbridge, 10; McKechnie, 8.

REAL ESTATE BULLETIN

Namayo Avenue is now having its deferred innings and prices are advancing rapidly. We have some excellent property on this avenue at reasonable prices.

We are also showing considerable Inglewood property today.

Appearances indicate that there will be a great deal of building in the Groat and Inglewood subdivisions this year.

ALBERTA PARK

We were out again today with clients and may shortly be compelled to run regular trips to this subdivision.

We also have considerable enquiry for this property from outside investors.

Buy EARLY is our advice.

Today's Offerings

Business Properties

A double corner on Namayo Avenue with house, one of the best corners on this thoroughfare, only \$8000

A double corner on Namayo Avenue ... \$4000

A corner on Jasper Avenue west for \$14,000

A double corner on Spur track for ... \$12,000

Residential Properties

An 8-roomed modern brick house, hot water heating, on good corner in West End, only \$10,000

An 8-roomed modern house on Seventh St., north of track ... \$1500

Lots in Inglewood, close in, \$500 TO \$600

Farm Lands

203 acres beside a lake, close to Leduc Station, at, per acre ... \$16.00

320 acres, 10 miles north of city, with coal right, coal proved in two seams, 175 acres cultivated, good buildings, etc. Per acre \$60.00

Oil Stocks

Prices being well maintained, we are buying steadily and shall be pleased to quote price for any American-Canadian or Alberta-Canadian you may have.

Scrip

S. A. is selling steadily and already the heavier demand is producing an upward effect on the market. We advise prospective purchasers to secure their scrip at once.

OURS IS ALL GUARANTEED.

H. B. Scrip also on hand.

Loans

We promptly arrange loans of any amount on usual security at current rates.

NEWS OF THE CITY

An application for the position of chief of police was received yesterday from J. D. Jameson of Whiby, Ont.

W. H. Cushing, senior member for Conservatives, Alberta legislature, who has been in Tennessee, has his home at Rebekah Maple Leaf Lodge No. 3 will hold its meeting on Wednesday evening, the 22nd inst., at 7.45 sharp.

A Cinderella dance will be held, under the auspices of the Black Watch Camp Co. 292, in the Separate School hall this evening.

A "Shoe Social" will be given by the Womans Auxiliary of All Saints Church on Saturday evening, Feb. 25th, at 8 o'clock.

Chief of Police Lancy's resignation will take effect tomorrow, the new chief, Staff Sergeant Ensor, late of the R.N.W.M.P., taking control of the department.

Mr. Wm. Sauerman left Calgary for Chicago, where she will join Mr. Sauerman. They will take a trip to the Southern States before returning to Edmonton.

The German Singing club will have a masquerade ball on Wednesday, February 28th, in the Royal Hall, corner Kinston and Boyd street. Lynch's orchestra will attend.

Information is wanted regarding the whereabouts of Nelson Abbott, last employed at the Great Estate and Street Railway Franchise here. Abbott, a man of 40, has some large interests in the vicinity of Edmonton, although he states that his business is of a very private nature here. He will remain for several days.

Mr. Tretheway came to Edmonton in 1902, and finally purchased from Malcolm Great, 900 acres of his estate at \$65,000. He had \$85,000 with which to make the deal. He subsequently sold the property to Mr. B. Inglis of Edmonton.

Mr. Tretheway is understood to have some large interests in the vicinity of Edmonton, although he states that his business is of a very private nature here. He will remain for several days.

In 1909 Mr. Tretheway secured a franchise for a railway from Edmonton to the south of the city, on the G.T.P. and G.N.R. He will probably have a big order of construction machinery, including steam shovels, scrapers, and other implements to ship into this city this spring.

This week 1000 carloads of scrapers and steam shovels are expected for the first time in several winters the Santa Fe railroad has been compelled to use snowplows to keep its lines open over the mountain pass and Grierley mountain.

Mr. Tretheway now lives on a model farm, which he has established at Weston, Ont., which comprises 450 acres of the best land.

COBALT MILLIONAIRE IS PAYING CITY A VISIT

Former Owner of Great Estate and Street Railway Franchise here on a Business Trip

W. G. Tretheway, a Cobalt millionaire, who was the original purchaser of the Great Estate and Street Railway Franchise here, has come to Edmonton to superintend a franchise to build a street railway in Edmonton, is visiting the city for the first time since he disposed of his franchise to R. Inglis of Edmonton.

Mr. Tretheway is understood to have some large interests in the vicinity of Edmonton, although he states that his business is of a very private nature here. He will remain for several days.

Mr. Tretheway now lives on a model farm, which he has established at Weston, Ont., which comprises 450 acres of the best land.

In 1909 Mr. Tretheway secured a franchise for a railway from Edmonton to the south of the city, on the G.T.P. and G.N.R. He will probably have a big order of construction machinery, including steam shovels, scrapers, and other implements to ship into this city this spring.

This week 1000 carloads of scrapers and steam shovels are expected for the first time in several winters the Santa Fe railroad has been compelled to use snowplows to keep its lines open over the mountain pass and Grierley mountain.

THE EDMONTON CAPITAL

EDMONTON WILL BE THE MAIN DISTRIBUTING POINT

A 1 Machinery Used in Construction
of Railways in Province Will Be
Sent Out from City in Future

Edmonton is probably to be made the wholesale distributing centre this fall for some of the biggest firms handling railway construction machinery, in the west.

G. Norstrom, member of the firm of G. Norstrom and Riley, of the West, has been engaged to represent the W. G. McNaughton Company and other manufacturing firms, in the city to day on business for his firm, and it is possible that Mr. Norstrom may consider arrangements for the opening of a whole sale distributing branch in Edmonton.

In view of the immense amount of railway construction that is proceeding in the province, and the large amount of the big irrigation construction going on in the south of the province, the big Minneapolis firm is considering a branch, and in addition to establishing a branch, should there be a demand for it, Edmonton will in all probability be the point selected.

In the meantime, Mr. Norstrom is in touch with business from some of the large railway contractors on the G.T.P. and G.N.R. He will probably have a big order of construction machinery, including steam shovels, scrapers, and other implements to ship into this city this spring.

This week 1000 carloads of scrapers and steam shovels are expected for the first time in several winters the Santa Fe railroad has been compelled to use snowplows to keep its lines open over the mountain pass and Grierley mountain.
